Upland regions such as the north of Scotland are difficult to farm and have few natural resources [1 mark].

4) Using figure 2, identify two features of the regeneration project

Any two from: e.g. the buildings have been improved [1 mark].

/ A walkway has been developed along the river [1 mark]. / New homes/offices have been built [1 mark]. / The environment has been made more attractive [1 mark].

5) Using an example of a UK urban regeneration project that you have studied, explain how the area has been improved (4)

This question is level marked. How to grade your answer There is no relevant information. [0 marks] Level 1: There is a basic explanation of the improvements made to a named UK regeneration project. [1-2 marks] Level 2: There is a clear explanation of the improvements made to a named UK regeneration project. [3-4 marks] Your answer must refer to a named example. Here are some points your answer may include: A brief description of the regeneration project and why the area needed regenerating. Social improvements, such as better (and affordable) housing, community facilities (health care centres, community centres etc.) and the introduction of cafés and Economic improvements, such as the creation of jobs and improved transport links. Environmental improvements, such as the development of parks and community sports fields, and the cleaning up of waste land. Your answer may refer to the regeneration of the Cardroom Estate in Manchester, now known as New Islington, where new homes have been built and public transport links and community facilities have been improved.
