

ICT

Cambridge Technical – Level 3

Awarding Body: Cambridge

Course Length: 2 years
CTEC

Entry Requirements: 32 – 35 Points

This course will cover:

A wide range of centre assessed units with practical and wider project-based assessment opportunities, as well as examined units on the Fundamentals of IT, Global Information, Cyber Security, and Cloud Technology.

This pathway focuses on the development of a range of applications across platforms and sectors. We've made sure you will gain the right combination of knowledge, understanding and skills required for the 21st century, enabling you to demonstrate the skills of writing specifications, and the design, build, testing and implementation of applications.

What our students say:

"ICT is a great subject as it allows students to have creative freedom within their subject whilst also having the support of teachers. We have created a website and a game. The course is assessed through coursework and exams"

Assessment Method:

There are two externally assessed units of works. There will also be three units of work that are coursework based. These will be internally assessed before being verified by an external moderator.

This course is ideally suited to...

...students who want to develop an understanding of the principles of IT and Global Information Systems. Students will gain an insight into the IT sector as they investigate the pace of technological change, IT infrastructure, the flow of information on a global scale, and the importance of legal and security considerations.

Designed in collaboration with experts spanning the breadth of the sector, the Level 3 Cambridge Technicals in IT focus on the requirements that today's universities and employers demand.
